

## **Baye Fall**

The Senegalese Islamic sect of "Baye Fall" is distinguished by their recycled patchwork clothing. It's an amazing sight to see their very hip clothes. It's especially interesting because it opens yet another door onto the study of Senegal's distinct style of Islam. The story of this sect, and who and how they are today is fascinating. We could easily find, photograph and talk with or interview a Baye Fall guy. There are famous Baye Fall musicians in Senegal as well.
